- INTERNET OF THINGS**
Coded a page to display temperature through raspberry pi, using python and javascript
- BAZAAR**
Developed PHP based bazaar with MySQL database for advertisement
- MAZDA CLONE**
Designed mazda's landing page with bootstrap CSS framework

Profile

I am flexible, a quick learner of new technologies and interested in current trends. I like to apply my skills in a team, but I can also work independently. I would be happy to contribute my skills to your project.
